## CHARLESTON TRACK DRYING

### HIGH WIND HELPS TO IMPROVE PALMETTO PARK COURSE.

Training Operations Suspended Yesterday Because of Unfavorable Conditions—H. G. Bedwell Continues to Head List of Winning Owners.

Charleston, S. C., March 8.—Training operations were practically suspended at Palmetto Park this morning as a result of the heavy going and also because, as was the case last Sunday, a high wind sprang up. Only a few horses were out and their moves were on the slow side. The wind did much to dry out the course and it should be in fair condition for the beginning of the week's racing tomorrow. Only three weeks remain of the present season and the same order of interesting sports that prevailed last week will be carried out. The program book for this week calls for contests which should bring out good horses and the two-year-olds again will be in the limelight. More new two-year-olds are being started with the running of each juvenile race and there are many good ones waiting for favorable track conditions before going to the post.

A glance at the nominations sent from here for the Kentucky Stakes which closed last week shows that the caliber of horses destined to race in the Blue Grass State during spring will be of the best. The Churchill Downs track closed last Monday, while those for Douglas Park and Latonia closed yesterday. Among the cracks nominated for the Kentucky and Latonia Derbys is Surprising, R. F. Carman's star Marta Santa colt, and his owner has high hopes that he will duplicate the feat of Meridian in winning him the Kentucky Derby.

The J. O. Talbott stable took a big jump in the list of winning owners during the past week, but H. G. Bedwell still has a commanding lead and there is little doubt that he will head the list for the entire meeting. Mr. Bedwell's success was limited in the past six racing days, although he was liberally represented on the daily programs. Jockey McTaggart also continued to make a good showing and it is impossible for any of the other riders to get within striking distance of him between now and the end of the season. He did his best riding of the meeting one day last week when he won three races, besides finishing second, second and third once.

Selling race troubles were renewed on Saturday when H. E. Gorin who lost his horse Coreopsis early in the meeting by the claiming process, arrived from his home in Louisville and ran up Queen and secured him. H. G. Bedwell, as has been his custom since the J. O. Talbott stable took Helen M. from him, bid her up when she won on the same day and, as usual, failed to secure her.

### SEES RETURN OF RACING PROSPERITY.

The signs of the times seem to point to a revival of interest in the sport of horse racing in the United States. The backbone of the opposition appears to be broken. The bills pending, levied against racing and betting on races, in some of the state legislatures are apparently only the expiring gasps of the repressors. However, this does not bode well for those who are most vitally interested in the welfare of the sport; it should rather spur them on to fresh and encouraged effort and thereby so firmly establish this time-honored sport on such a footing that it can never again be assailed with any manner of success.

Eighty-six days of racing are announced for the state of New York this year, as against fifty-five last season. From this it would appear that our breeders confidently anticipate, in the near future, a remunerative market for their yearlings, and that the people of the Empire State demand and propose to enjoy the sport for a far longer period than was possible in the dark days, which now seem happily to be over and done with.

The racing pulse of the people of New York is the true index to the situation; a revival of the good times there means nothing but a cessation of hostilities elsewhere, for other states are morally certain to follow New York's lead.

There must be, however, though the silver lining bids fair to break forth into open day, no cessation of endeavor to uplift and improve the character of our racing. Special attention must be paid to the development of the social feature of the sport—especially in the west by those in control of our racing plants. As things now stand, the lady members of our racing enthusiasts hardly receive at the hands of the powers that be the consideration which is justly theirs. There are no spacious lawns carpeted with velvety turf and flanked by flowers, for promenade; the races are run off at an amazing rate; the holiday feature is all too lacking; in fact, "the business of racing" is far too much in evidence, and if there is one thing more than another that will tend to improve the status of racing generally it is the encouragement and development of the social feature.—Thoroughbred Record.

### ANTE-POST BETTING ON ENGLISH RACES.

After an interval of over a week, in the course of which no wager whatever was recorded, betting over the Lincolnshire Handicap and Grand National Steeplechase was resumed in the London Club with an approximation to briskness. The latest returns are to February 25, when the horses backed in the Lincolnshire and their prices were:

Horse.	Age.	Wt.	Odds.
Bonbon Rose	3	112	100 to 8
Cuthbert	3	102	100 to 6
Sir Martin	8	113	100 to 7
Maiden Erleigh	5	129	100 to 6
Happy Warrior	3	90	100 to 6
Allegone	4	111	100 to 6
Pontival Keene	4	98	100 to 6
Clear	6	118	20 to 1
High Rock	4	92	20 to 1
Knuck Na-Corriga	5	92	20 to 1
Berrillion	5	112	20 to 1
Romeo	6	111	20 to 1

For the Grand National, the French Lutteur III. was slightly the favorite over Covercoat, but several other candidates had been introduced and backed, the state of the market being:

Horse.	Age.	Wt.	Odds.
Lutter III.	10	174	100 to 12
Covercoat	8	175	9 to 1
Ballyhackett	11	168	100 to 8
Jacobus	7	156	100 to 7
Carrigree	9	161	100 to 6
Cotrufen	10	161	20 to 1

Bonbon Rose being French-bred and owned, the singularity is presented of France furnishing the favorites for the two great events of the opening week of the fast approaching English campaign of 1914.

### NOTES OF THE TURF.

It is reported that W. G. Yanke practically recompensed his earlier losses in the closing days of his sojourn at Charleston.

A large proportion of the stables racing at Charleston will be shipped to Norfolk for the Jamestown Jockey Club's meeting beginning April 1.

### THE FOREMOST OF CANADIAN RACING EVENTS

The season is at hand when the attention of the hosts of racing enthusiasts in Eastern Canada is turning to the King's Plate, oldest of America's continuously run races and the premier event of the Canadian turf. This famous fixture, instituted in 1860 as the Queen's Plate and run annually ever since without a break in its continuity, will be decided for the fifty-fifth time on the opening day of the Ontario Jockey Club's spring meeting at the Woodbine track, Toronto, May 23. The Ontario Jockey Club has increased the value of the race from time to time until now it figures as one of the richest fixtures of Canadian racing. In its early running the prize was only the fifty guineas donated by the reigning sovereign of England, but the winning of it was just as keenly sought as in these later days, when its intrinsic value has been made commensurate with its importance and traditions, historically and socially. The entries for this year's renewal of the race have just been announced and with the owners, breeding, weight to be carried and other particulars, are as follows:

THE KING'S PLATE—50 guineas, the gift of his majesty King George V. The oldest fixture run continuously on this continent. Estimated value \$6,000. 50 guineas, the gift of his majesty King George V., with \$5,000 added by the Club. The first horse to receive the guineas, stakes and \$3,500; the second horse \$700, and the third horse \$300. The breeder of the winner to receive \$500. A sweepstakes of \$5 payable at time of entry, \$5 additional, unless declared out by May 1, and \$25 additional for starters. For three-year-olds and upward, the property of a British subject resident in Ontario, foaled, raised and trained in Ontario that have never won a race, either on the flat or across country, other than a race exclusively for two-year-olds, have never left Canada and have never been for a period of more than one month out of this province. Winners to carry 5 pounds extra. Death of nominator does not render entry void. One mile and a quarter. A piece of plate will be presented by the Club to the winner. Declarations Friday, May 1. To be run Saturday, May 23.

Owner. Horse. Col. Sex. Age. Pedigree.

2—Surpass, Amoret, Beverstein.  
3—Righteas, Amoret, Rye Straw.  
4—Big Rock, Joe Stein, Jacob Bunn.  
5—Daddy Gip, Qued, Tom Holland.  
6—Agnier, Servicience, Miss Primitivity.

T. K. Lynch.

## EPSOM DERBY CANDIDATES DISCUSSED.

First and foremost the principal object of discussion is, of course, The Tetrarch, concerning which there have been adverse rumors ever since he rapped his leg on the eve of the race and was prevented in consequence from running for the Kempton Park Imperial Produce Stakes in October, prior to which he had run through seven engagements undefeated and was universally admitted to be out by himself the best of his age. By many he was magnified into a wonder of the century, and it is a fact that during the latter part of the summer he was hard to back at 5 to 2 for the Derby. Beyond all doubt he showed time after time phenomenal speed, and that he is a real nailer for pace has been fully established by his remarkable sequence of victories, but it does not follow that he will stay, and some good judges are of opinion that he was tiring at the finish, easily as he appeared to win the Champagne Stakes at Doncaster, one such critic having, I understand, been Frank Wootton, who rode Stormy, second to him.

Everyone hopes in the interests of his owner, who is an enthusiastic young sportsman of the very best pattern, that no permanent trouble will result as a consequence of the mishap, and with more or less authority it has been asserted that he is all right and doing well. All the same there are almost as many rumors afloat as there are spots on his handsome body, among them even that he is touched in his wind, also that his joints will not stand hard training, and again, most serious of all if there be any truth in the report, that the trouble is seated in the pan of his heel. That there is a screw loose somewhere is much to be feared; indeed, it is admitted that he has long been under veterinary treatment, and the announcement that he was fired not long ago has not been denied, but the weakest point of all is that he has been distinctly on the easy list, his work having rarely exceeded walking and trotting, ever since the mishap which pulled him up in the autumn. To my mind this is significant of weakness somewhere, and in spite of the eulogistic reports conveyed in the training notes from Stockbridge I can only say, and that most regrettably, that we are confronted by another case of "wait and see" for until The Tetrarch has again asserted himself in public faith cannot be re-established. Meanwhile he continues nominally favorite in a minimum market for the Derby, with no backers, the fact being that until something definite is known no one is likely to espouse either his cause or that of any of his possible contemporaries, for in several instances they, too, are under a certain amount of suspicion.

Kennymore, for instance, is not blessed with the best of joints in front, and to this and the hard ground which prevailed throughout the greater part of the season may reasonably be ascribed his belated debut in the Middle Park Plate, in which he carried 122 pounds and, after beginning slowly, finished third, beaten three lengths from Corycra, 126 pounds, and half as far from Stornoway, 129 pounds, but with Evansdale, Brakespear and Black Jester behind him this was not a bad beginning for a 50 to 1 chance. Naturally he was narrowly criticized on his return to the Birdcage, and while generally pronounced an exceedingly good-looking horse, except for his weak joints, some of the experts went one step further, and expressed the fear that he might become a roarer. That the initial race had done him a lot of good, as also the intermediate gallops at home, was shown emphatically by the way in which he acquitted himself in his next and only other race. This was the Dewhurst Plate a fortnight later, when, with the weights favoring him by comparison to the extent of six pounds, he upset the odds of 5 to 2 laid on Corycra so decisively that the opinion is justified that the result would have been the same had they met on even terms. He is a fine horse, by John O'Gaunt—Crocum, and presumably it is from the sire that he inherits his family forebodings—that being a not unusual character in his progeny. With Stornoway I am afraid it is not a case of suspicion, as he is a roarer, and probably it was on the principle of making hay while the sun shone that Mr. Hulton ran the son of Desmond and Sisterlike for the Clearwell Stakes on the opening day of the Newmarket Second October meeting, rather than keep him in reserve for the Middle Park Plate. It was sound policy, as he beat Black Jester, and won the former event easily enough, but the longer and severer course on Friday stopped him effectively, when he was a harmless factor as far as concerned Corycra when the ascent out of the Abingdon Dip had to be faced.

Hapsburg has wintered wonderfully well, and without growing much in height, has developed enormously throughout his frame, but he impressed me as more likely to go fast than stay, being, in fact, just the cut of a Two Thousand Guineas horse. Flying Orb, another good smart performer as a two-year-old, is wrong in his wind unfortunately, but I have not heard anything detrimental to By George, the third foal of the lovely mare, Queen's Holiday, which previously produced Charnier, Charlie, by Cupbearer and Queen's Parade, too. Count Schomberg, By George is a remarkably sleek looking bay son of Pelly, and belongs to a tried all-round sportsman in Capt. Forester, who has had his fair share of Fortune's smiles as an owner of racehorses, one of the most successful of which was Hackler's Pride, winner of the Cambridgeshire two years in succession. On the occasion of his debut at Salisbury in May By George was the recipient of ten pounds and a good hiding in the bargain from Aldford, but on the same course at the Bibury Club celebration in July he easily beat Black Jester at a couple of pounds for the Champagne Stakes, and when giving nine pounds to Miss Isissipi in September was duly beaten by a head for the Little Breeders' Plate at Warwick. His only other race handsomely confirmed the good opinion which had been always entertained of him, as, with 128 pounds up at Kempton Park, he ran clear away from Sunny Land (119 pounds), Longtown (129 pounds), Louis, St. Spec, Evansdale, Hapsburg, and others in the Imperial Produce Stake. According to all accounts he has made completely satisfactory progress throughout the winter recess, and I should say, at present as good a favorite as anything for the Derby.

Such remarkable surprises have been effected in connection with the Derby within the past few years that one must be prepared for anything, and by way of emphasising my point I will merely ask who would at the corresponding period in the several years concerned have thought seriously of Spearman, Orby, Signorinetta, Minorn, Tagalle, or Abeyour as prospective winners of the Blue Riband. While there is life there is hope, and all owners practically interested in the classic events of the

coming season may find encouragement in the experiences of the past. My notes have referred chiefly to the colts which on two-year-old form appear to be possessed of the best chances of distinction during the coming season, but there are others of possibilities which cannot be passed with impunity. Aldford, for example, like The Tetrarch, went through his engagements without a reverse, having won six races off the reel, and all in smart business-like fashion. The Duke of Westminster may not—indeed, does not—take the same interest in racing as did his predecessor, who won the Derby four times by the aid of Bend or, Shover, Ormonde, and Flying Fox, but for all that Aldford is the best horse he has bred, and it is a thousand pities that he is a roarer. A good-looking brown colt by Manvezin—Mangalini, he is the first produce of the half-sister to Flying Fox, and opened his account as far back as April by beating a huge field for the Beckhampton Stakes at Newbury. A bad stumble did not prevent him from easily winning the Stamford Plate at Chester, and next he gave ten pounds and four length beating to George in the Salisbury Stakes—a starting performance gauged by subsequent developments. At Ascot he ran away with the Sixty-firs' Trial, and behind the Ditch at Newmarket when giving twelve pounds away, made short work of Lanus and others in the Stud Produce Stakes, while by way of finale, he just lasted long enough to beat Land of Song (received six pounds), at the end of six furlongs for the Newbury Autumn Foal Stakes. On the whole, this is a fine record, but one cannot imagine a roarer winning the Derby, and in case Ormonde should be cited as an exception I may mention that his wind was not affected until later in his brilliant career.

Ambassador enjoyed a tall reputation in private, but, although twice a winner, failed to realise expectations in public, and of greater promise, in my opinion, is Dan Russell, a good-looking brown colt by Chaucer—Hettie Sorrel, bred and owned by Lord Derby. So far "Dan" has wintered wonderfully well, and it stands to his credit that he won three of the five races in which he took part last year, although at his last attempt, when a hot favorite, he handicapped himself by beginning slowly and was overtaken by Hesdene to gain twelve pounds. Torchlight in the Leicestershire County Foal Stakes, this is quite a fine horse, and may with confidence be relied on to win some of his numerous engagements, though the highest honors may prove just beyond his reach. Draughtsman, one of the first of Fugleman's progeny, had a half dozen tries last year, but won once only, when at even weights he managed to squeeze home a short head in front of Happy Warrior for the Balham Stakes. Mr. J. B. Joel is well by choice between Parhelson and Black Jester, the one a son of Sunridge and Our Lassie, winner of the Oaks, and the other by Polyphemos—Absurdity. Parhelson ran but three times, and had the bad luck to fall up against The Tetrarch at his first essay in the Woodcote Stakes at Epsom, but at Goodwood he had no difficulty in beating Honeywood and Kheri for the Lavaux Stakes, while he wound up in grand style at Newmarket in October, for carrying 131 pounds, he raced away from Sunny Lake (122 pounds) and Longtown (131 pounds) in the Fendersgate Stakes. Black Jester is an exceptionally promising colt, but will be relied on to win some of his numerous engagements, though the highest honors may prove just beyond his reach. Draughtsman, one of the first of Fugleman's progeny, had a half dozen tries last year, but won once only, when at even weights he managed to squeeze home a short head in front of Happy Warrior for the Balham Stakes. Draughtsman, one of the first of Fugleman's progeny, had a half dozen tries last year, but won once only, when at even weights he managed to squeeze home a short head in front of Happy Warrior for the Balham Stakes. Mr. J. B. Joel is well by choice between Parhelson and Black Jester, the one a son of Sunridge and Our Lassie, winner of the Oaks, and the other by Polyphemos—Absurdity. Parhelson ran but three times, and had the bad luck to fall up against The Tetrarch at his first essay in the Woodcote Stakes at Epsom, but at Goodwood he had no difficulty in beating Honeywood and Kheri for the Lavaux Stakes, while he wound up in grand style at Newmarket in October, for carrying 131 pounds, he raced away from Sunny Lake (122 pounds) and Longtown (131 pounds) in the Fendersgate Stakes. Black Jester is an exceptionally promising colt, but will be relied on to win some of his numerous engagements, though the highest honors may prove just beyond his reach. Draughtsman, one of the first of Fugleman's progeny, had a half dozen tries last year, but won once only, when at even weights he managed to squeeze home a short head in front of Happy Warrior for the Balham Stakes.
